THE SHIELD

Most people associate shields with protection, security, and defense, however, universities use the shield to represent strength, controlled environment, and safety.

Shield delivers several different messages depending on the shape of the shield and the symbols on it. The most common symbol is an open book, indicating that knowledge is freely circulated. If a university has one of these logos, it can also represent long history of the institution.

LION OF ENGLAND

The lion is a common charge in heraldry. It traditionally symbolises bravery, nobility, royalty, strength, stateliness, and valour, because historically it has been regarded as the king of beasts.

The Lion of England is the crowned golden lion of England, influenced by the Welsh lions, which has been one of the supporters of the Royal Arms since the accession of James I in 1603. It supports a shield showing the Arms of the United Kingdom as they have been since Queen Victoria's accession in 1837.
