ABOUT US

Packsense is proud to supply both locally and globally due to its strategically positioned London headquarters, Asian manufacturers, and Peterborough distribution centre.

Our great supply chain management has resulted in a solid connection with all of our clients and a positive reputation. Our enthusiastic corporate culture, can-do attitude, and high product quality have contributed to our success.

At all times, customer satisfaction and fulfilment are our top priorities. We strive to meet demand by offering the widest variety of products to meet all client requirements and budgets, enabling you to make an informed decision based on your business model.

Manufacturing a broad variety of new products at once highlights our efficiency and faith in meeting deadlines. To ensure the highest standards of quality, we are exerting great effort to enhance our quality control procedures. Inferior goods will be eliminated by a rigorous selection procedure. Due to health and safety regulations, we do not carry anything below a specific grade.

Environmentally responsible growth and sustainability have always been our core objectives. We devote a significant amount of time and resources in securing renewable materials and developing innovative products to minimise waste and maximise effects.

This brochure details our current range of products and services. For more information, help or advice, contact us on:

SOUP BOWLS

The paper soup bowls are ideal for both hot and cold soup or dishes with sauces as they are leak-proof. These bowls are printable and made of SFI-certified paper, making them ideal for personalising and branding.

These bowls are widely used to pack rice, pasta, ramen, and udon noodles due to the lower angle design of the inclination and greater diameter.

SPECIFICATIONS

Code	Product	Size	Case Size
P10156	White Soup Bowls	36oz	300
P10157		42oz	300
P10158		54oz	300

P10160		165mm	300

PAPER BOWLS

The round deli bowls are made of Natural Kraft PE-Lined board. Because of their adaptable design, they can be combined with various insert layers, providing excellent stackability. They enable you to provide a secure and convenient takeaway service.

The clear lid of this container, which is sold separately, is perfect for showcasing your culinary, gaining more exposure, and piquing customers' interest. A straightforward yet stylish way to serve salads, rice dishes, noodles, spaghetti, and other food-to-go.

CORRUGATED WINDOW BOXES

One of our distinctive items is these contemporary food-to-go boxes with a display window. They are among the best ways to make food from warming counters or refrigerator cabinets look appetising when presented.

These stylish serving dishes, which are made of paperboard with a PET liner, can be used to serve clients a choice of take-out favourites, such as jacket potatoes, various hot dishes like noodles or rice dishes, as well as leafy salads and pasta dishes.

Customers may consume their food while on the go directly from the box, and with the leak-proof webbed corners, they can be sure they won't end up eating their clothes!

These modern containers for takeout food have vents for food presentation. There are small, medium, and giant sizes available.

SOUP BOWLS

Made of PE-Lined Natural Kraft board, which offers great stackability, the rectangular deli bowls are rectangular in shape. In addition to salads, rice dishes, noodles, and spaghetti, they are ideal for carrying and presenting hot and cold items.

The clear lid of this container, which is sold separately, is perfect for showcasing your culinary, gaining more exposure, and piquing customers' interest. A straightforward yet stylish way to serve salads, rice dishes, noodles, spaghetti, and other food-to-go.

P10313	No.6A Kraft Food Container	25oz	675
P10314	No.8 Kraft Food Container	46oz	300

SOUP CUPS

Our heavy-duty paper containers offer excellent insulation, making them perfect for hot foods containing soups, broths, and noodles. They are produced from food-grade paper that has been PE lined and delivers a high level of strength. The steam-hole pattern in the paper lid allowed hot air and moisture to escape.

These paper containers are printable and ideal for branding; yet this is subject to a minimum order quantity. They are available in sizes ranging from 8 to 32 oz.

STAND OUT FROM THE CROWD

BESPOKE PACKAGING & BUSINESS PROMOTION

BESPOKE PACKAGING & BUSINESS PROMOTION

Our bespoke packaging solution allows you to differentiate yourself from competitors by placing your label on our products. This branding activity is an extension of your marketing strategy and provides an excellent opportunity to promote your company.

Imagine your brand label travels along with the food container or carrier bags from one location to another. Walking down the street, enjoying a favourite drink or even having a delicious meal, people could easily recognise your brand label. Such extensive exposure helps create brand awareness and the potential for brand recall.

In terms of branding, this could be one of the most effective methods of communicating with the end user.

PRINTING PROCESS

Our bespoke packaging service provides a high-quality printing solution with professional printing applications, such as spot colour mode, Pantone Matching System (PMS), and other colour-matching services.

Spot colour printing is ideal for achieving colour accuracy and print run consistency.

The Pantone Matching System is a universal colour-matching system where each colour is pre-mixed with a specific formula and represented by a numbered code. Another significant advantage of using Pantone inks is the concern for sustainability, as they are vegetable (soya) based and completely food safe.

Currently, we offer a maximum of 6 solid Pantone colours per print with a gloss-coated or matt-uncoated finish.

PRINT OPTIONS

A member of our Packsense Bespoke Team will walk you through all the criteria for custom print, from selecting the appropriate material to finalising product designs, from the minimum order quantities (MOQs) to delivery and storage capacity solutions.

We could assist you with two different methods to get ready for custom packaging printing.

ONE-STEP DESIGN SOLUTION

We can design and handle your artwork for you! Your logo and business concept are the only things you need to submit. Please describe to us the look and feel of your finished product. We'll handle the rest.

After that, please let us know how your things will be delivered, stored, and packaged. Upon your request, we will choose the best packaging option.

DESIGN ON YOUR OWN

We can provide unique packaging design examples as well as our manufacturing templates for your in-house graphic designers to use when creating your artwork. The lead time in this case is determined by the quantities and packaging specifications.

We also work with several blue-chip companies in all sectors of the industry. Our consultative approach can satisfy all your requirements on quality control and packaging.

ADDITIONAL SERVICES

It is highly advised that your design adhere to the standard of particular Visual Identification (VI) system to ensure the visual coherence of all the branding materials. To achieve ongoing visual identification, we can provide a number of additional services, including

1

Colour matching

2

Original packaging design

3

Complete redesigns

4

In-house product mock-ups

5

Pre-mass production flat samples

6

Pre-mass production fully formed samples
