## LASER HAIR REMOVAL

Laser hair removal is designed to permanently remove unwanted body hair. Here at Moolan, we specialise in laser hair removal for men and women. All of our hair removal treatments are undertaken after consultation at the discretion of the beauty therapist.

Laser hair removal is the most effective form of hair removal with results that are either semi-permanent or long lasting. The areas below can all be treated with laser hair removal. A qualified beautician will perform the hair removal. Different types of hair, colour, and skin can all be treated and the procedure is painless, effective and quick. The laser is passed over the treated area, destroying the hair follicle, or the hair root. This also reduces further hair growth and leaves your skin feeling silky smooth. A course of 4 to 6 hair removal treatments is recommended to effectively remove the unwanted hair.

We can make your eyelashes look thicker and more defined by applying soft, natural colour between your lash line to make them seem fuller. The effect created by our lash enhancement is similar to using mascara but you won't have to worry about it smudging, running or wearing off or removing it when you go to bed.
